The Director presented the board with information and findings on electric and gas compressors. The Board reiterated that any change to the current ordinance would not allow “grandfather” exceptions. Existing compressors that failed to meet the current ordinance would be handled under a nuisance mechanism already in place. The Board also stated that decisions made regarding compressors would not be on a case-by-case basis, but rather a blanket rule. The Board asked the Director to do more research into the issue and report back at the next meeting.

Item #5 on the agenda was consideration of appointing a Chairman and Vice Chairman of the Planning & Zoning Board. Commissioner Newton made the motion to re-appoint Chairman Jacobson as Chair. Commissioner Farmer seconded the motion. All Board members voted aye with the exceptions of Vice Chairman Moe whom abstained and Commissioner Sigman who voted nay. EXHIBIT A

TAX ABATEMENT GUIDELINES, CRITERIA AND POLICY COUNTY OF NAVARRO, TEXAS

SECTION 1. AUTHORITY, PURPOSE AND OBJECTIVES

- 1.01 Pursuant to Chapter 312 of the Texas Property Tax Code, the County of Navarro, Texas (hereinafter referred to as "County") is authorized to designate Reinvestment Zones and to enter into tax abatement agreements in areas of the County that do not include areas that are in the taxing jurisdiction of a municipality. With regard to properties located in Reinvestment Zones for which a municipality has given tax abatement incentives, the County may likewise enter into tax abatement agreements
- 1.02 Section 312.002 of the Texas Property Tax Code requires that the County establish guidelines and criteria governing tax abatement agreements. These guidelines and criteria are for the purpose of promoting the efficient and reasonably consistent administration of tax abatement incentives. These guidelines are effective for two (2) years from the date adopted by the Navarro County Commissioner's Court (hereinafter referred to as "Commissioner's Court").
- 1.03 These guidelines and criteria, and the procedures established herein, do not:
- a. Limit the discretion of the Commissioner's Court to decide whether to enter into a specific tax abatement agreement,
 - b. Limit the discretion of the Commissioner's Court to delegate to its employees the authority to determine whether or not the Commissioner's Court should consider a particular application or request for tax abatement, and
 - c. Create any property right, contract right or other legal right to any person, or firm, or corporation to have the Commissioner's Court consider or grant a specific application for a specific request for tax abatement.
- 1.04 The County is committed to the promotion of quality development in all parts of the County and to an ongoing improvement in the quality of life for its citizens. Insofar as these objectives are generally served by the enhancement and expansion of the local economy, the County will, on a case-by-case basis, and within its sole discretion, give consideration to providing tax abatement as stimulation for economic development in the County. It is the policy of the County that said consideration will be provided in accordance with the guidelines, criteria and procedures outlined in this document. Nothing herein shall imply or suggest that the County is under any obligation to provide any incentive to any applicant. All applicants shall be considered on a case-by-case basis.

- 3.03 An area may be designated as a Reinvestment Zone if the Commissioner's Court, after a public hearing on the proposed designation, finds that the designation would contribute to the retention or expansion of primary employment within the County or would attract major investment in the Reinvestment Zone and would contribute to the economic development of the County.
- 3.04 A public hearing on the proposed Reinvestment Zone designation must be held prior to the findings and action of the Commissioner's Court on the proposal. - 5.01 The following threshold criteria shall be used to determine whether any tax abatement incentives shall be considered:

- 6.02 The criteria outlined in Section 5 above, and other relevant criteria as applicable, will be used to determine whether it is in the best interest of the County to provide any economic development incentives to a particular applicant. The degree to which the specified project furthers goals and objectives of the County and the relative impact of the specified project will be used by the County in its sole discretion to determine the total value of the incentives provided. As a general rule, no tax abatement will be provided to any applicant in an amount exceeding the value of the following:
 - a. No incentive shall be provided which abates taxes on real property or personal property by more than five hundred percent (500%) over ten (10) years of the specific project (i.e. 50% level of abatement for a term of 10 years).

ANTIQUITIES PERMIT COMPLETION REPORT FORM HISTORIC BUILDINGS AND STRUCTURES

When work is done to a historic building or structure, recording changes as they take place allows the structure's evolution to be fully documented for future study. To that end, the Rules of Practice and Procedure for the Antiquities Code of Texas (13 Tex. Admin. Code § 26.25) require project completion reports for all historic structures permits, with the exception of new construction permits.

The completion report has two parts: written documentation and a photographic record. Photographic documentation is an important part of the record of project work. Photographs must be taken before construction begins, during construction, and after the completion of construction. Each photographic view -- before, during, and after construction -- should be of the same area to clearly illustrate the project work as it progresses.

- Photographs should be 4" x 6" color prints or larger. Photographs must be in-focus and clear; images that are out-of-focus, underexposed (too dark), overexposed (too light), or pixilated are not acceptable documentation.
- Photographs may be taken with a 35mm or digital camera. Digital prints must be equivalent in quality and clarity to prints from 35mm negatives. Digital photographs should have a resolution of at least 300 ppi (pixels per inch) with an image size of at least 1600 x 1200 pixels.
- Digital photographs may be printed on an inkjet or laser printer and must be printed on high-quality paper intended for digital photographs. Photographs should not be submitted on plain paper. Acid-free archival papers and inks are preferred but not required. High-quality color photocopies of photographs are acceptable documentation. Black-and-white photocopies of photographs are not acceptable documentation.
- Photographs must be clearly labeled on the back of each print, corresponding to a photographic index listing each photograph and its location relative to the structure. A plan key indicating the location and direction of each image taken may also be submitted in conjunction with the photographic index. Digital photographs may either be clearly labeled on the back of each print or composed and labeled on 8 1/2" x 11" sheets using desktop software.

The completion report should be prepared at the close of the project and must be submitted prior to expiration of the historic structures permit. You may use this form to prepare the completion report, or provide equivalent documentation in a different format. Submit one (1) unbound copy of the completion report form with one (1) set of photographic documentation to the Texas Historical Commission Division of Architecture at the mailing address below.
