NAVARRO COUNTY 911 ADDRESS / PERMIT REQUEST

FOR YOUR INFORMATION

An enhanced 911 (E911) Address serves as both the physical or site address for a property, and as a location identifier for emergency services.

INSTRUCTIONS

1. Please complete **ALL** portions of this application.
2. Attach your proof of ownership of the property by copy of the warranty deed or contract.
3. Provide survey or “draw a map” portion with driveway marked with an “X”.
4. Include \$50.00 application fee. Make checks payable to “Navarro County”. Submit application to the address above. Processing generally takes 5-7 business days for the new address to be assigned.

NOTE

- * We only provide addressing for the unincorporated areas of Navarro County. If you are located within one of the incorporated cities, you will have to contact that city for permitting/addressing.
- * If the driveway will open onto a State roadway, you may need approval for the placement of the driveway from TxDot.
- * If the property is only accessible thru someone else’s property, you must include a copy of the granted easement with the survey showing the easement.
- * Rural addresses are issued based on the location of the primary driveway. Please note that moving your driveway will result in a new address and you will need to contact this office to report the move and obtain a new address.

If you are unable to finish the requested information for any reason, or if you have any questions, please do not hesitate to contact me.
